New!

Grinding spindle Ø 60mm, HSK-C40

Compact and powerful, our new Ø 60 mm spindle develops performances that allow higher productivity and optimization of the grinding process.

Equipped with synchronous motor and steel bearings lubricated for life, it requires little maintenance. The MMO-60 is available in 2 versions: water cooling, 2.4 Nm and 12,000 rpm or oil cooling, 2.2 Nm and 12,000 rpm. Following benefits are therefore guaranteed:

- Increased production rates
- Compact and lightweight optimized for easy integration
- High performance in minimal space
- Designed specifically for grinding applications
